Customize It

Creative Bag has been supplying custom bags and packaging to retailers, advertisers and marketing companies since 1984. Though we are known for our vast selection of packaging products in our retail stores, our business started with customizing products for select customers.

Design a cool bag, put your identity on it and your customers will be happy to carry it around town.

For just pennies more per bag, you can customize your point of sale or trade show bag with an identity or a message. It will increase your brand awareness while being an ongoing sales tool wherever your customers take it.

And we don't stop at bags. The possibilities are endless.

We have a range of products available for customizing that is second to none. We can customize ribbon, tissue, gift wrap and boxes - if you want your branding on it, we can do it for you. We can handle custom multicolor print projects for large national chains, but haven't lost sight of the fact that small short run custom products are just as important for smaller operations.
